

Research Support Fund Expenditures by Eligible Categories (2015-16)

Recovering the full costs of research is a crucial budgetary and advocacy issue. Real institutional costs associated with supporting research include building occupancy, information technology infrastructure, financial and human resource management, and libraries. For each direct dollar of research expenditure, 58.3 cents are required in indirect research support at U of T.

Data source: VPRI. Based on government fiscal year, April to March. Total funding shared between on-campus (50.3%) and partner hospitals (49.7%)
